2<sup>nd</sup> / 3<sup>rd</sup> paragraphs: Provides the background of the story (Who, What, Where, When, Why?)

Last paragraph: Ends the story conclusively.

\*\*\*\*\*

### **Example:**

The State Emergency Service says it has received fewer damage reports than expected despite rough weather overnight.

The S-E-S says many parts of the State were lashed by high winds and rain with the roughest conditions recorded over the ADELAIDE metropolitan area.

There were FORTY FIVE call outs to help with damaged roofs and fallen trees but many more had been expected.

ADELAIDE'S southern suburbs were the worst affected.
